# Prashant Saran Singh

prashantsaransingh@gmail.com  | +91 8528840551

An enthusiastic professional with comprehensive expertise in programming languages and development tools, eager to contribute to the success of a forward-thinking company. I am seeking a role where I can leverage my skills for the company's benefit while also having the opportunity to further enhance my own capabilities.

## PROFESSIONAL SUMMARY

- Over 2 years of dedicated expertise in Backend & front-end UI/Web development within corporate environments.
- Proven track record of crafting highly interactive web applications, harnessing Java, SpringBoot. JavaScript, HTML5, CSS, JSON, RxJS, and Angular, with seamless integration of RESTful APIs.
- Proficient in web technologies and standards, ensuring optimal experiences across various platforms, including responsive web UI.
- Skilled in crafting visually stunning web applications through meticulous HTML5, CSS, SCSS, JavaScript, and Angular coding.
- Extensive experience in developing Single Page Applications (SPAs) utilizing Angular.
- Hands-on familiarity with custom directives, controllers, services, filters, and modules within Angular.

## EXPERIENCE

### Associate Software Developer                                            Feb 2023 - Present
Novelvox Software Private Limited, Faridabad
- Skilled in developing RESTful APIs using Spring MVC, enabling seamless communication between client and server applications.
- Experienced in implementing Spring Data JPA for efficient database interactions, including CRUD operations and custom queries.
- Leveraged JIRA for efficient defect tracking, enabling systematic issue resolution and effective project oversight.
- Tasked with the creation of efficient designs and the development of User Interaction screens utilizing HTML, CSS3, JavaScript, and Angular.
- Enhanced application performance through Angular Component-based development, keeping in mind future transitions to newer Angular frameworks.
- Employed the RxJS Observable library to implement HTTP requests, effectively handling multiple values over time
- Worked with Node.js to develop server-side applications, leveraging its asynchronous, event-driven architecture to handle multiple requests concurrently and improve system performance.
- Utilized Node.js for building microservices, enabling scalable, maintainable, and efficient backend architectures.

## EDUCATION

### Bachelor of Technology (B.Tech.) - Computer Science          Jun 2019 - Jun 2023
*A.K.T.U*

## SKILLS

**Angular, Java , SpringBoot , Node Js, Typescript, RxJS, JavaScript , SCSS, CSS, Html, GitHub, Angular-CLI, NPM , Java , Design Patterns , DSA (leetcode), Microservices**
